Subject: No to Section 35

To Whom It May Concern:

I strongly oppose Section 35 as a repository option for the Mike Horse mine tailings. My mother and father in law, Mike and Barb Grimes, live directly across the street from Section 35. Their property is also directly downstream. They get their drinking water from a well that is hydraulically connected to Section 35. Do the math. This is completely asinine.

The selection process itself has been opaque, under-handed and defies common sense. Who puts a toxic dump in the middle of a neighborhood?

Ask yourself...seriously ask yourself...would you want this across the street from your home?

NO to section 35!
